It REALLY IS About Trust

Citizens of Ajax For an Independent Council is a non partisan group dedicated to the elimination of party politics and block voting on our Municipal Council. We are of the opinion that the last two terms of Ajax Council have been subverted by the agenda of the few at the expense of many.

It is our belief that the voters of Ajax are being misled by certain candidates insinuating that their opponents have a “developer” agenda.

Frankly, we feel that ANY type of party-like politics is unacceptable on Council no matter if it's developers or other council members setting the agenda.

We have found 37 recorded votes on Ajax Council for 2005 – 2006 (2004 minutes were not available online) and compared the voting patterns of councillors to each other and to the Mayor.

We have highlighted where, we believe, certain trends exist.

We'll leave it to the voters of Ajax to decide who is influencing our councillors.

The table below shows councillors votes in relation to the Mayor. We have highlighted where we believe trends exist

Councillor	Received Funding from Parish for 2003 election	Recorded votes cast with parish present	Recorded votes identical to Mayor	Recorded votes differing from Parish	Percentage voting identical to Parish
Crawford	No	34	22	12	65%
Jordan	Yes	31	29	2	94%
Collier	No	31	23	8	74%
Dickson	No	35	15	20	43%
Dies	Yes	35	35	0	100%
Brown	No	34	33	1	97%

This Table Shows Councillors' voting patterns on recorded votes in relation to other councillors. Once again we have highlighted places we feel trends exist
